izzonapoletano
Forno elettrico Napoletano per pizza Napoletana

IZZO
NEAPOLITANPIZZAOVEN

MODEL IZ4

"The oven that revolutionised the world of Neapolitan pizza."

The oven that revolutionized the world of Neapolitan pizza.
All of Izzo Forni's expertise has been poured into it. Captivating aesthetics, the use of high-quality materials while striving for production savings, and the artisanal care evident in every detail make the IZZONAPOLETANO series unparalleled.
"Handmade," inimitable, but above all, UNMATCHED in performance. Perfectly distributed and maintained temperature thanks to the hand-crafted heating elements. Baking floor made of "Biscotto di Sorrento" clay bricks for making authentic Neapolitan pizza according to AVPN protocol and all other floor-baked products.

TECHNICAL CHARACTERISTICS

- Cooking chamber floor made of 45 mm thick "Biscotto di Sorrento" type clay brick
- Cooking chamber ceiling, unique on the market, in 40 mm thick refractory bricks grooved to house heating elements with visible portion
- Independence of switching on the bottom and top heating elements
- Maximum precision electronic thermoregulation of the temperature in the chamber
- Electronic timer for programmable timed switching on
- Hand-rolled 80/20 bare nickel-chrome spiral resistors with differentiated power distribution
- Highly insulating rock wool thermal insulation
- Electronic control board, for energy saving, inserted frontally "concealed"

STANDARD EQUIPMENT

- Front shelf and mouth frame in natural lava stone.
- Insulated chamber closing door
- Structural support mounted on retractable swivel wheels
- Large lower storage compartment with double door.
- Removable lower plinth for handling with pallet truck/trolley.
- Iz-smart card with remote control via dedicated app
